Acmé

# Marble designs for daily living

At Acmé, our vision is to bring an elegant and expressive design concept to homes and living spaces. We embrace formalism, minimalism and baroque, recognising their ability to explore the technical and aesthetic potential of marble, the most natural of materials.

## EVERYDAY THINGS

We believe that design is an integral part of everyday life. Even the simplest gestures, such as drinking coffee from one's favourite cup, choosing the next book to read from the bookcase in the living room, or opening a room door, can be rich in beauty and reflect our aesthetics and personality.

## TECNICAL KNOW-HOW

Acmé draws on the technical expertise of CISAM Marmi, a long-established Sicilian company with a rich history of exploring the potential of natural stone. While embracing technological advancements, CISAM Marmi maintains a steadfast commitment to the raw material and its inherent beauty.

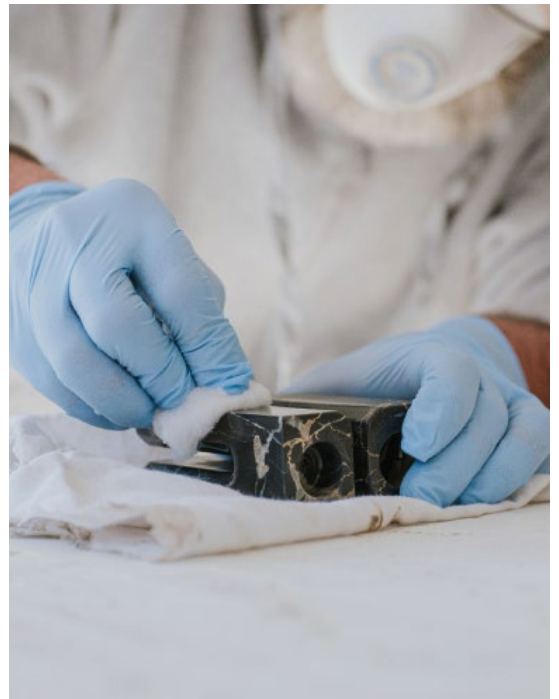

## CREATIVE KNOW-HOW

Acmé's creative team is Studio Forward, a design studio with 20 years of experience in architecture, design and communication. Their interdisciplinary approach and expertise in design is at the forefront of their work.

Acmé's spaces, featuring a wide range of objects from small decorative accents to impactful furniture, exude a sense of both sacredness and playfulness.

The wide range of finishes and combinations reflects the personality of the people who use them, and the Acmé collections invite customers to imagine a new everyday life for living spaces, offices and hospitality environments. Series production is complemented by the creation of unique pieces for those who seek the exceptional and the extraordinary in design.

# Sicilian elegance with a contemporary touch

Acme's latest collection pays homage to the storied Sicilian tradition of marmi mischi, a celebrated art form characterised by the intricate blending of different marble varieties to create stunning, mosaic-like patterns. Each piece in the collection is a testament to timeless craftsmanship, skilfully merging the vibrant colours and dynamic textures of various marbles.

The product range includes tiles, tables, bathroom furniture and decorative items, all of which demonstrate the natural beauty and intricate detailing that define marmi mischi.

The collection celebrates the cultural heritage of Sicily and incorporates modern design sensibilities, resulting in pieces that are both historically rich and visually striking, perfect for adding a touch of refined elegance to any interior.

# EGO

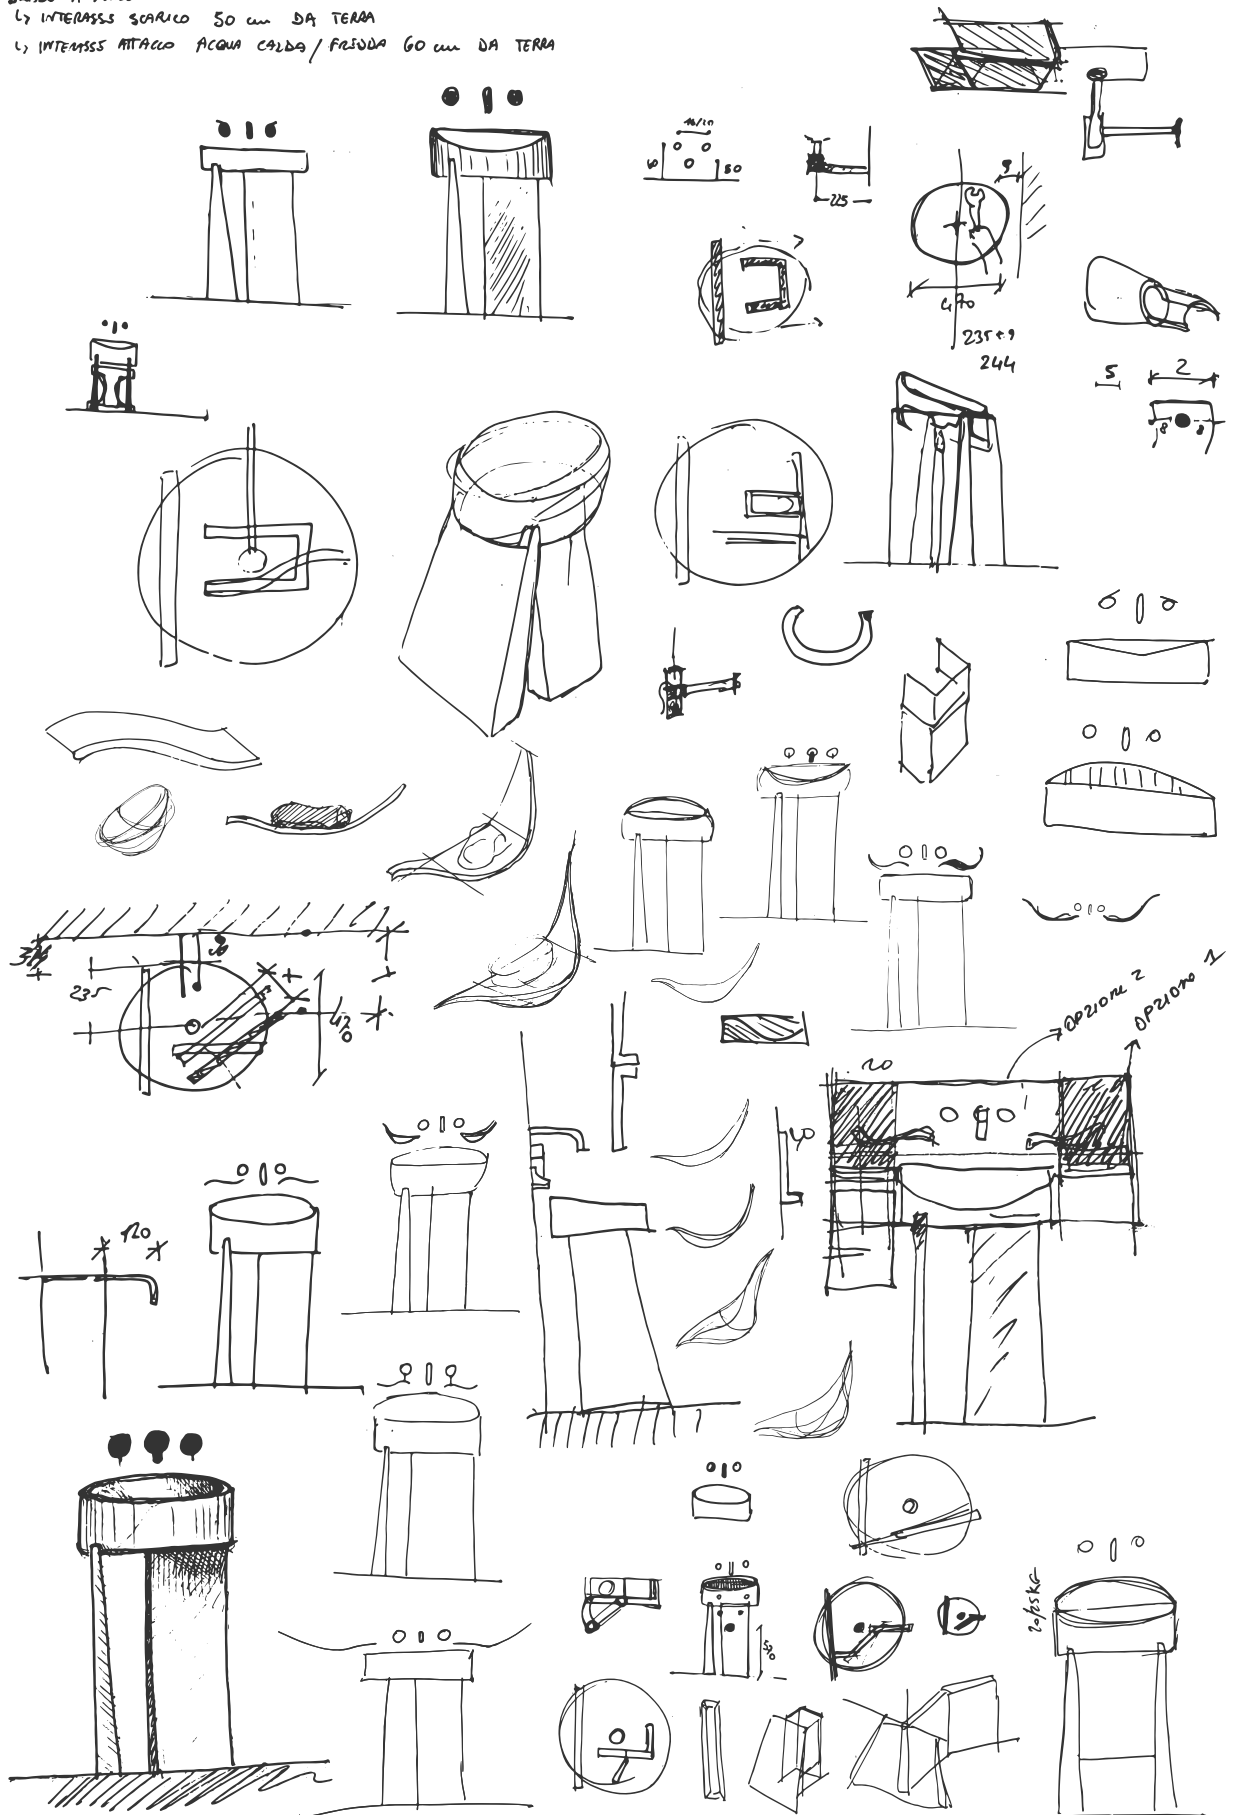

Crafted from two marble slabs forming the structure, EGO features a round bowl that resembles the contours of a human body and face, blending the beauty of marble with a striking, anthropomorphic design.

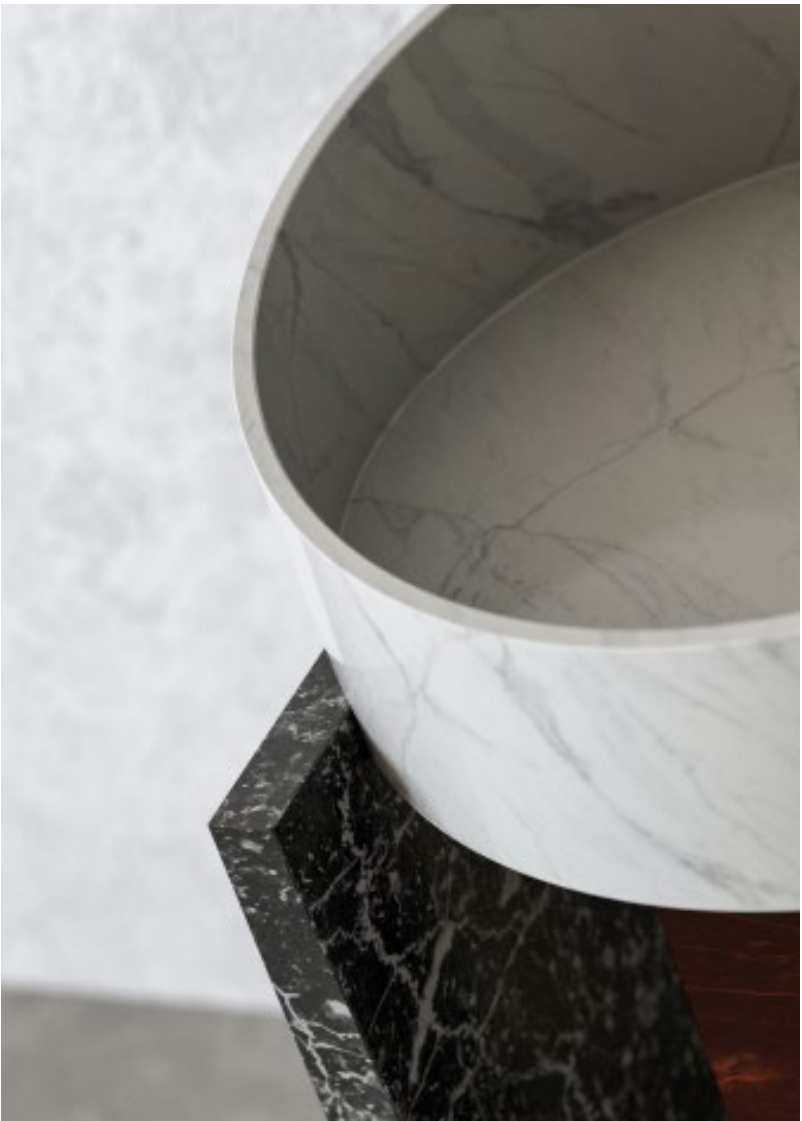

LAMBO A MURO

↳ INTERASSO SCARICO 50 cm DA TERRA

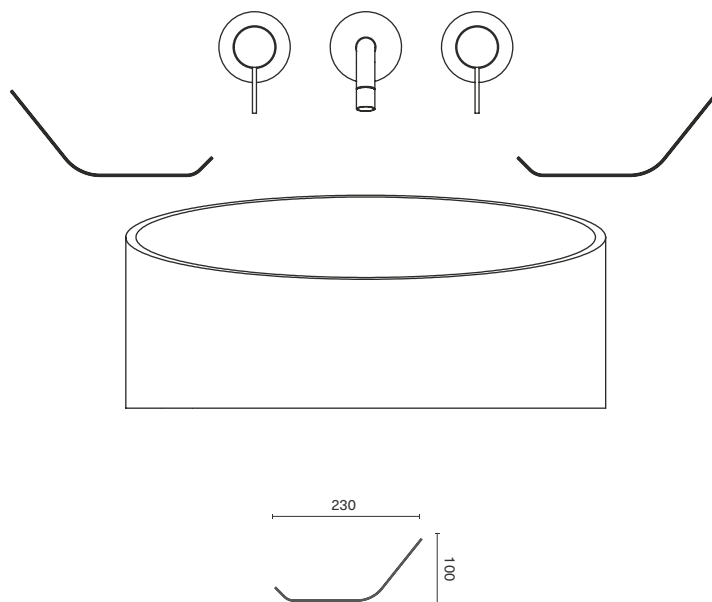

↳ INTERASSO ATTACCO ACQUA CALDA/FREDDA 60 cm DA TERRA

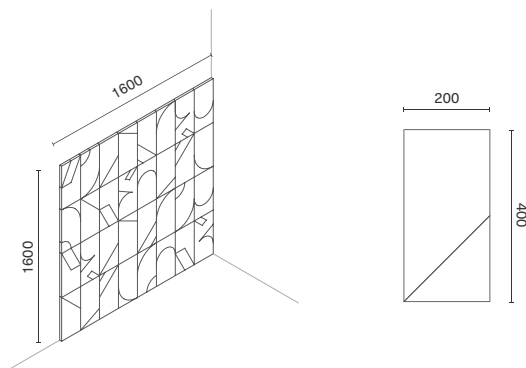

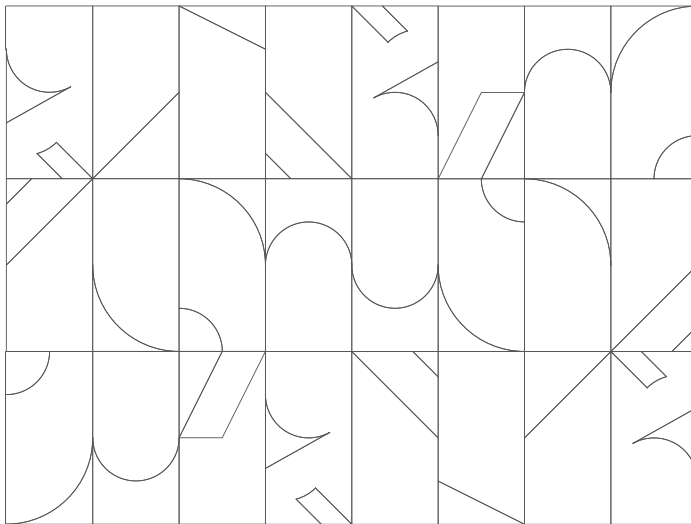

# DALÍ

Drawing inspiration from the iconic mustaches of Salvador Dalí, these shelves boast a geometric and minimal design. The playful reference adds a touch of irony and elegance to your bathroom while providing practical storage.

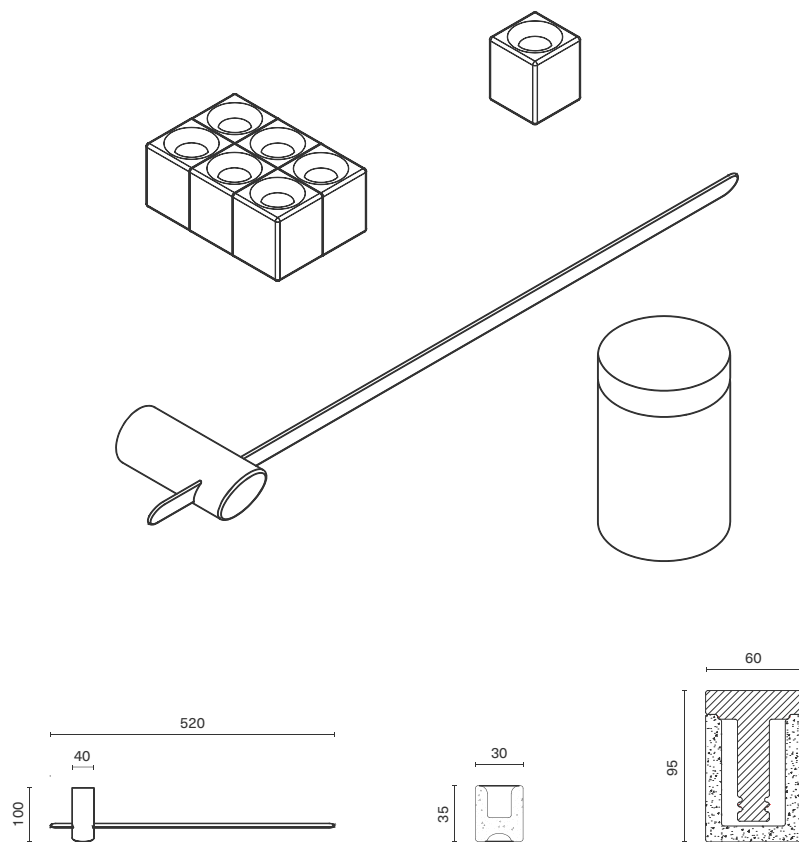

# TRATTI

Tratti is a collection of marble tiles that blend geometric shapes, varied finishes and vibrant colours. They offer a sophisticated way to transform any bathroom into a dynamic and creative environment.

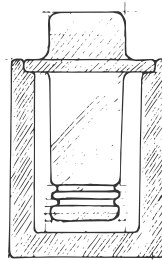

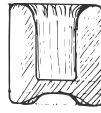

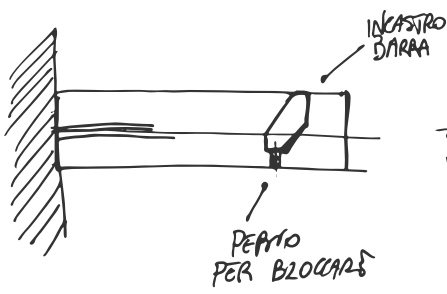

# GESTI

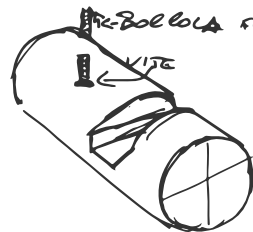

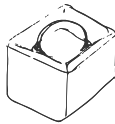

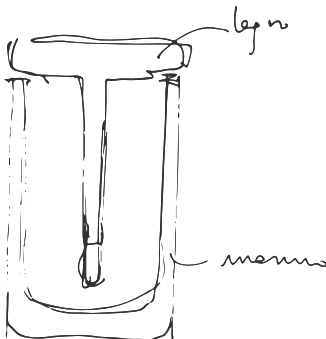

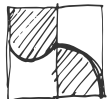

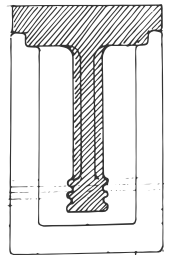

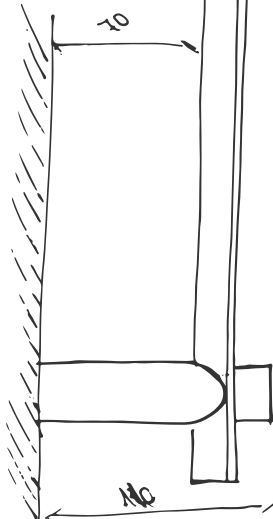

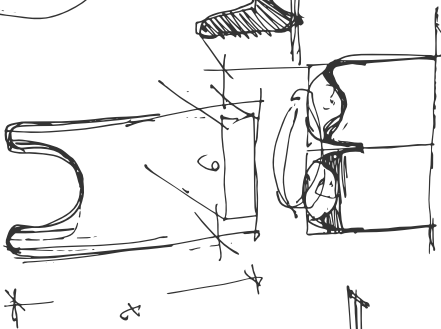

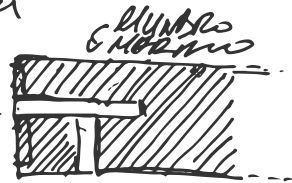

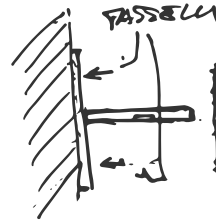

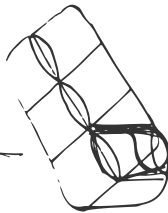

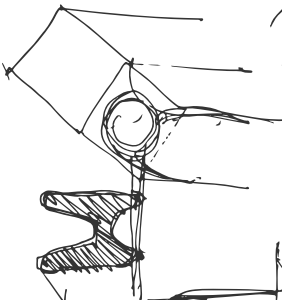

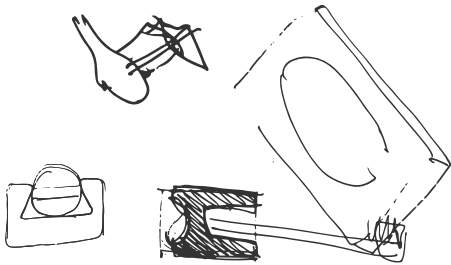

Acmé's range of small bathroom complements draws inspiration from our customers' daily routines. Each piece of Gestì, crafted from marble, wood or steel, enhances your bathroom experience.

→ MODULARITA'

→ MULTIFUNZIONALE

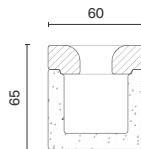

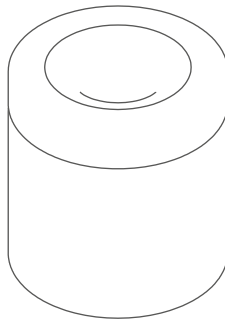

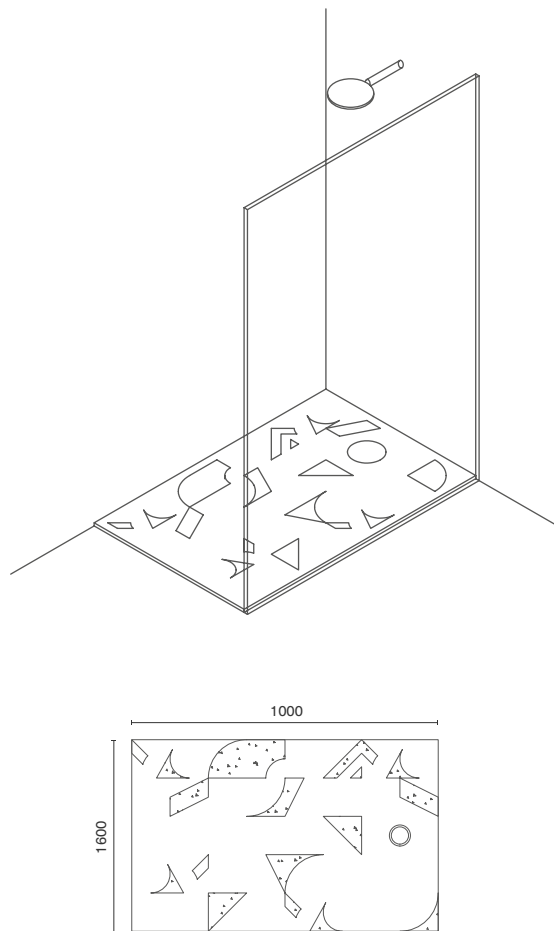

# RESPIRO

An air freshener that combines the timeless elegance of marble with the warmth of wood to bring a refreshing and serene ambiance to any space, Respiro is crafted to exude a strong natural feeling.

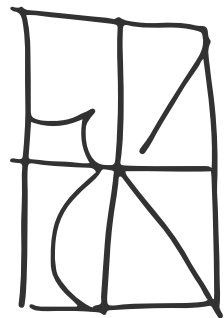

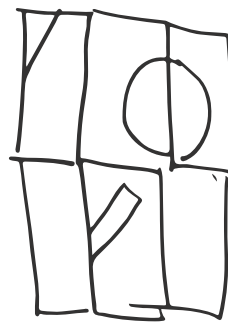

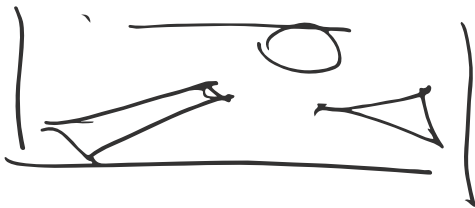

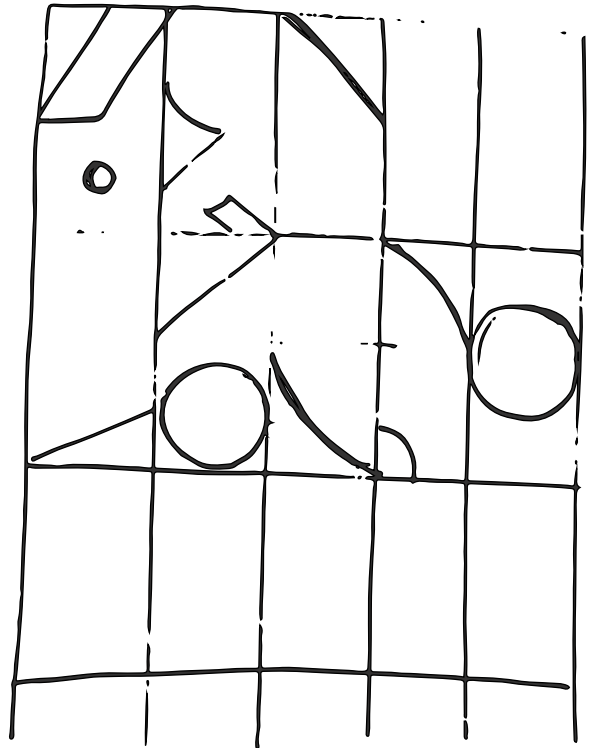

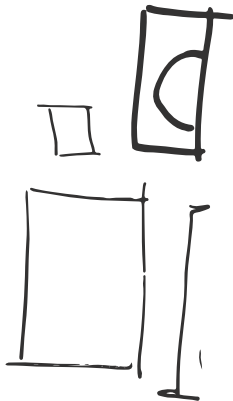

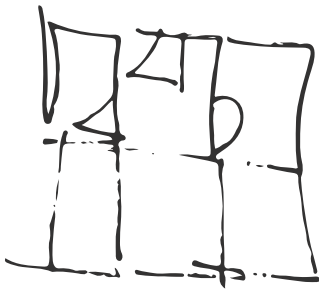

# RIVA

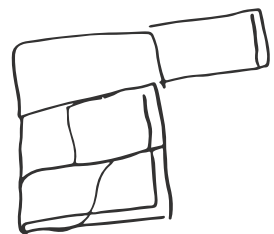

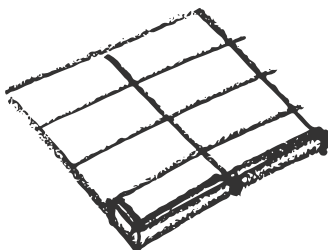

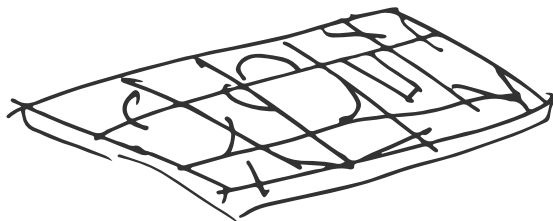

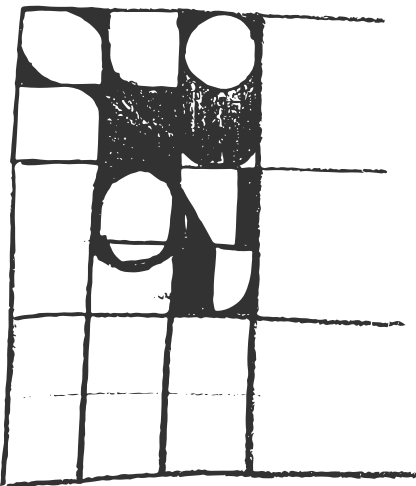

Acme's interpretation of the shower tray features subtle geometric elements and slight bush hammering for enhanced stability, ensuring a secure showering experience. Riva combines sophistication with practical functionality.

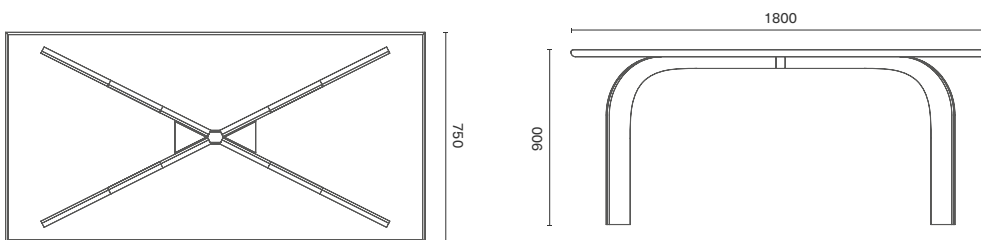

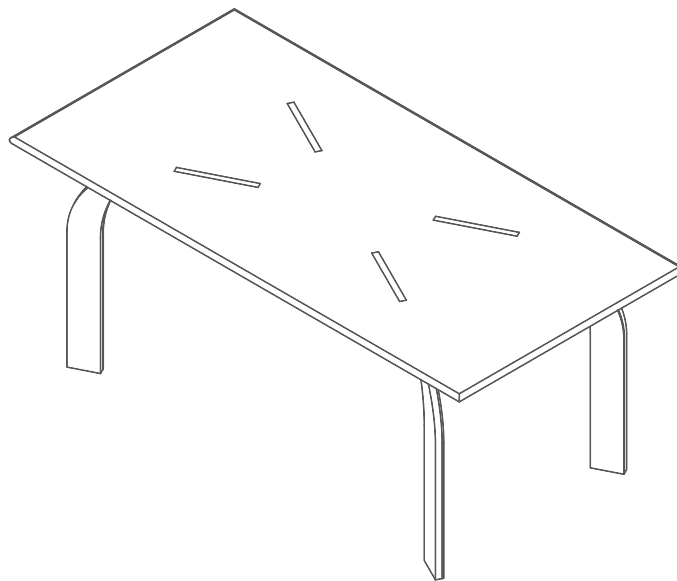

MODULO

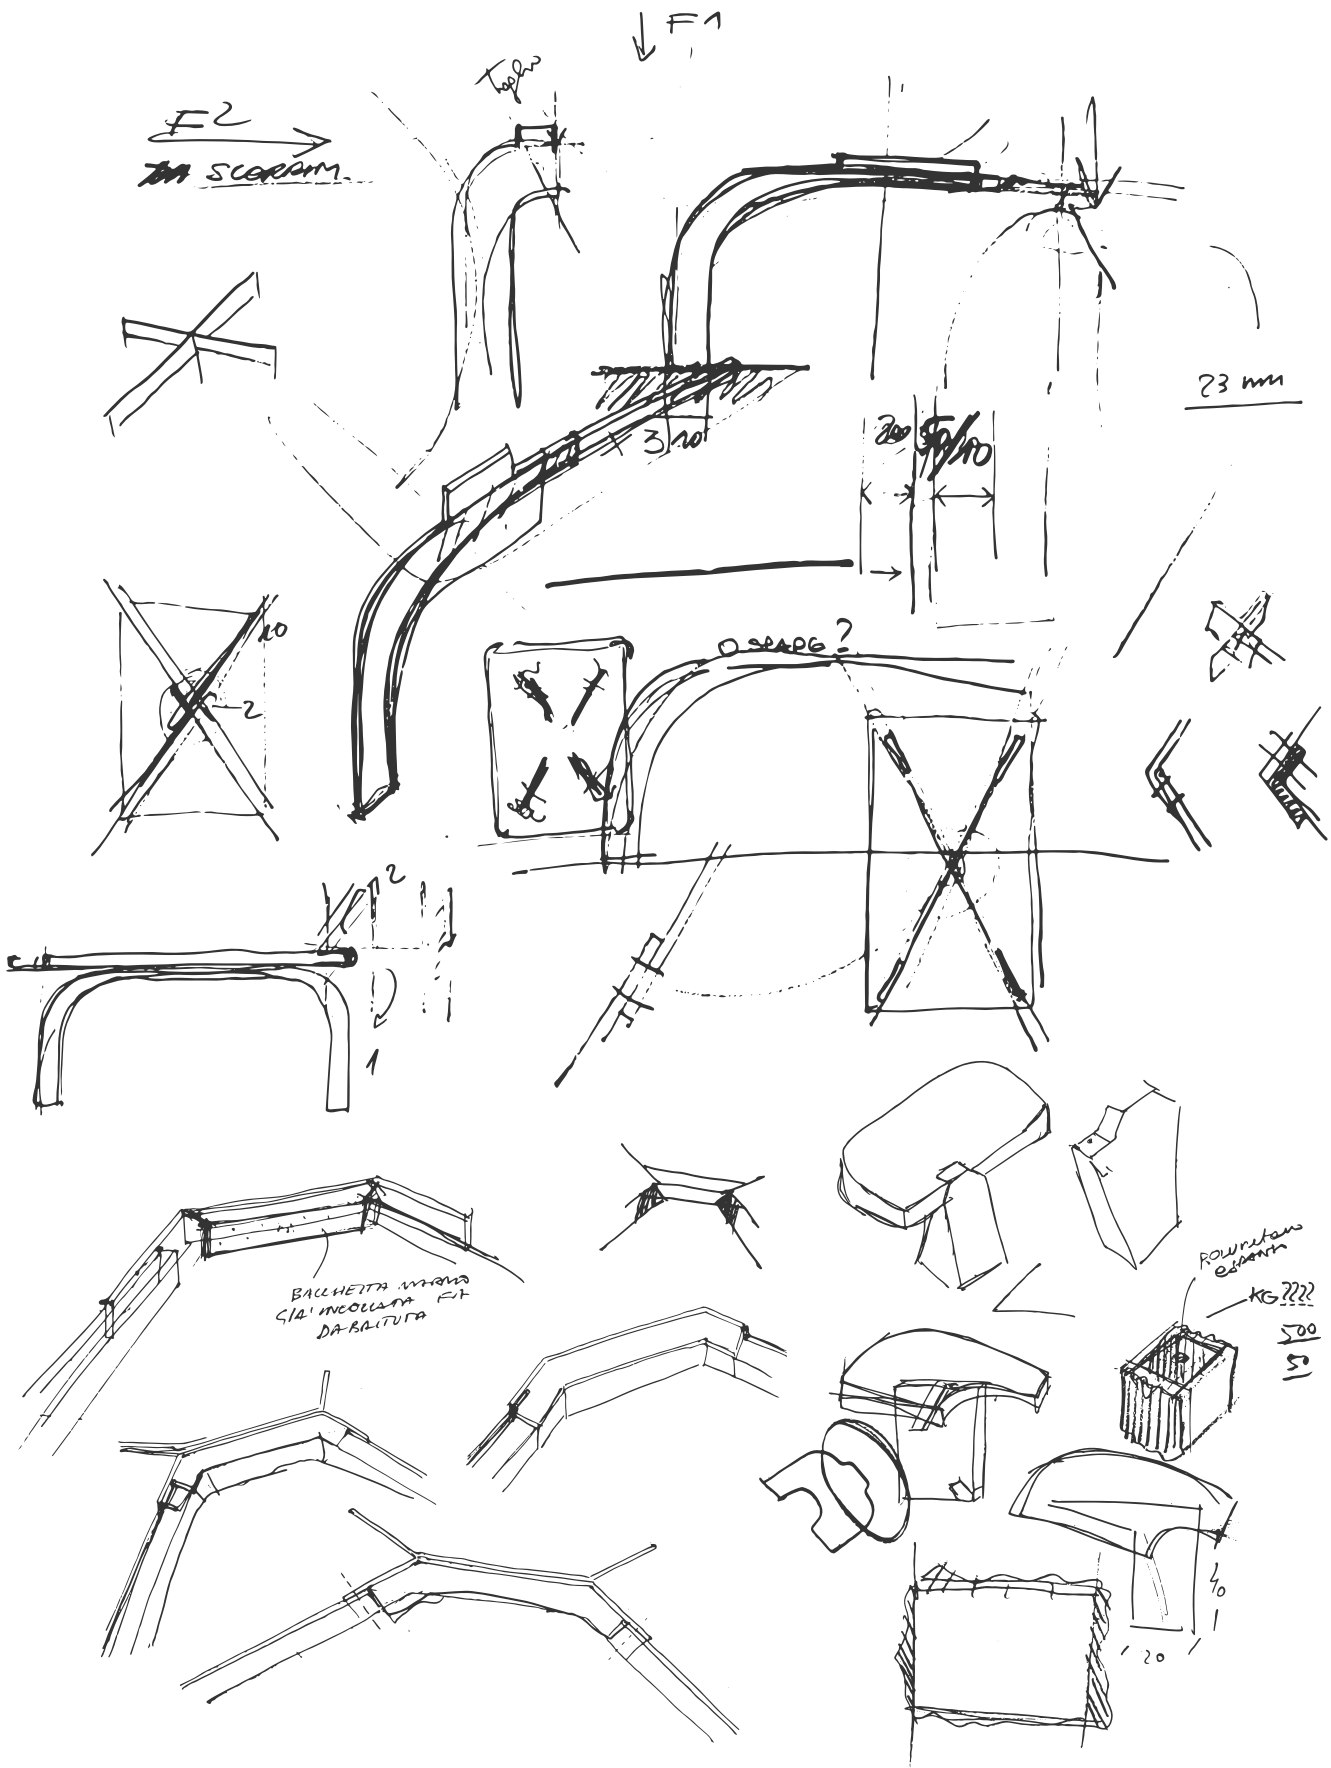

# INCONTRO

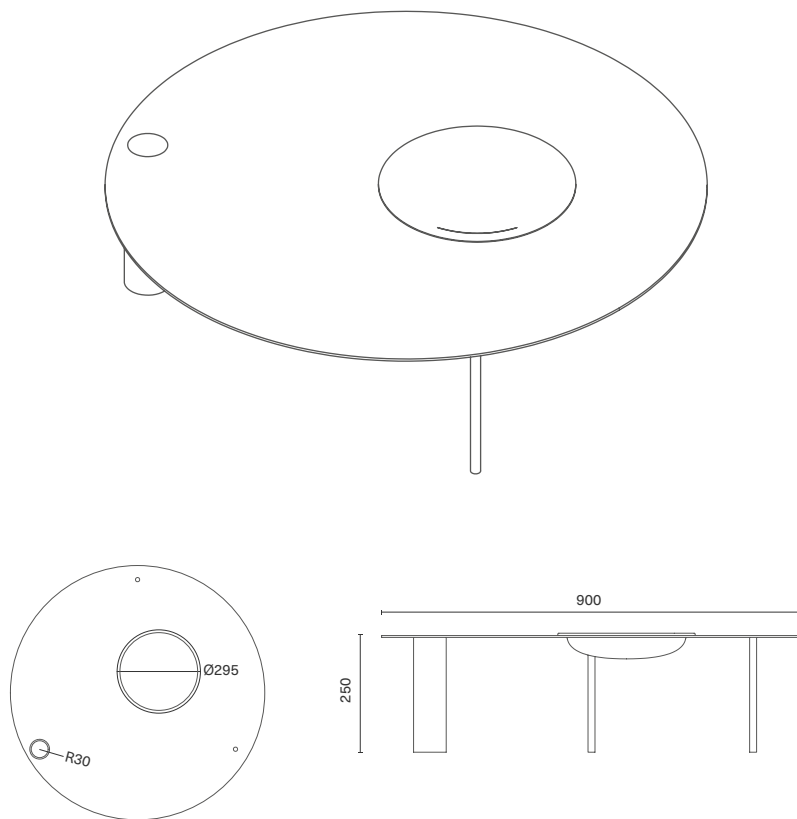

Acmé's marble dining table, Incontro, features straight lines that contrast with the curved forms of the legs, creating a balance between linear precision and organic elegance.

# SATELLITE

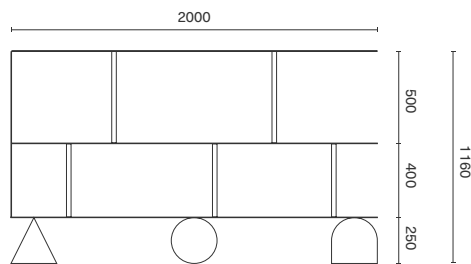

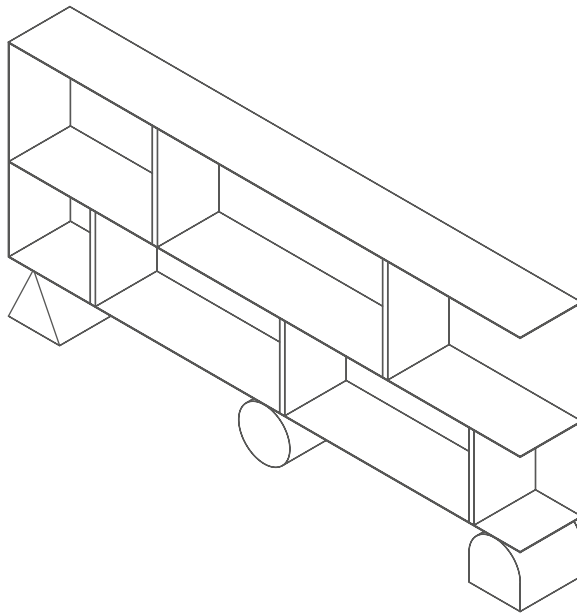

The Satellite low table's thin steel top and integrated marble bowl for storage make it a sleek design. The marble legs add elegance and balance. This blend of materials and functional elements creates a harmonious and contemporary look.

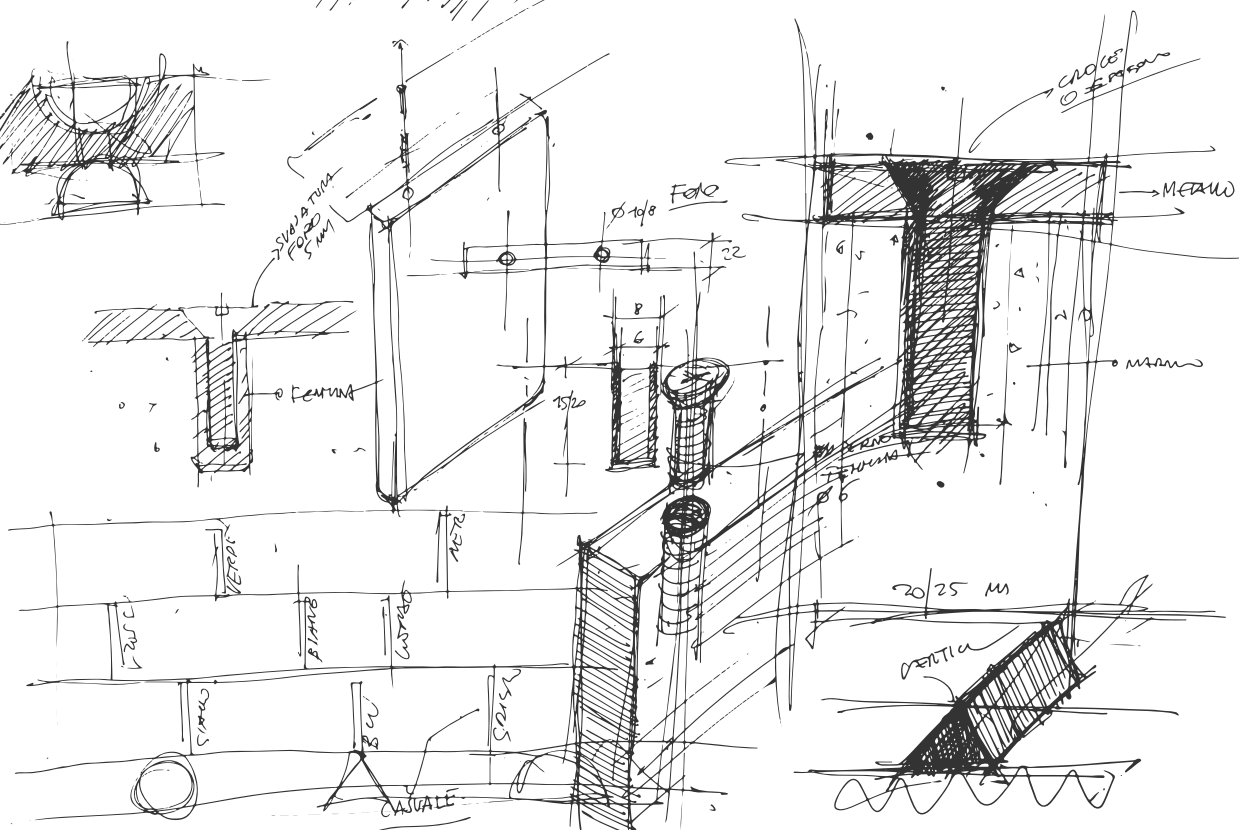

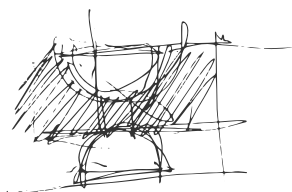

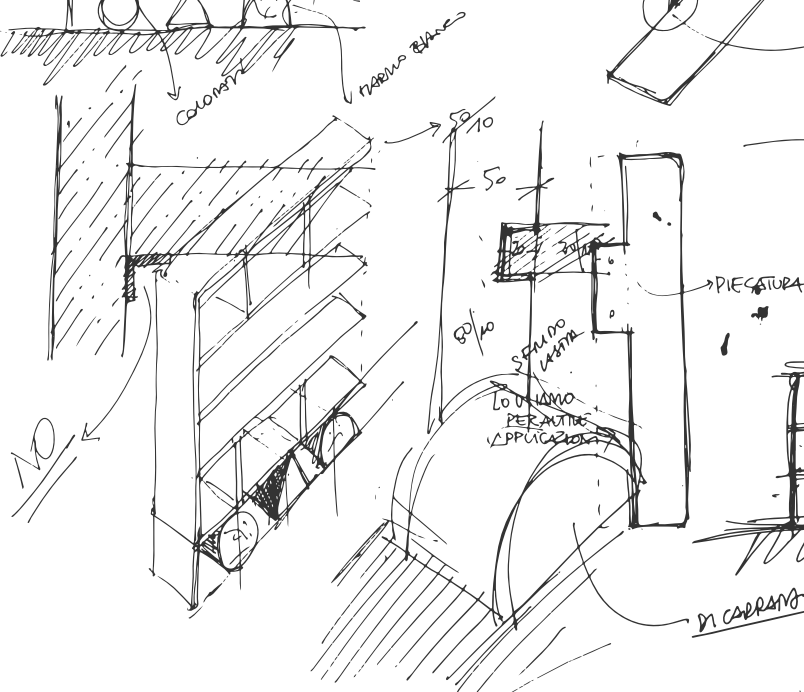

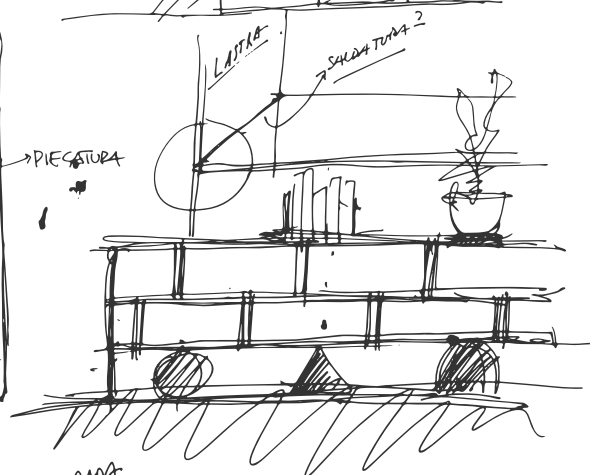

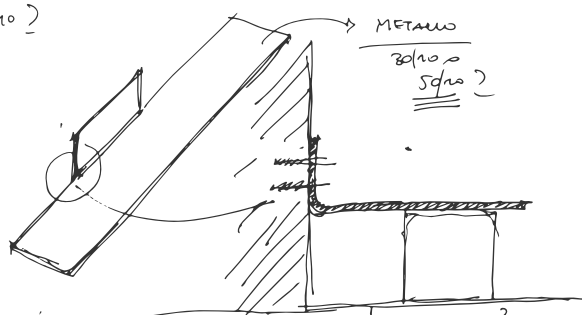

# ETTORE

Ettore draws inspiration from the works of Ettore Sottsass, showcasing three distinctive marble elements at the base and a blend of vertical marble panels and horizontal steel shelves. This low bookcase is a striking piece that will add depth and character to any room.

# Elevating marble waste into timeless design

Our innovative collection, Macerie, redefines luxury by transforming marble waste into exquisite design objects. Inspired by sustainability and the beauty of repurposing, each piece tells a story of renewal and creativity. From mirrors to elegant candle holders and irregular trays for your special dinners, these items blend eco-consciousness with sophisticated aesthetics, inviting people to reflect on the beauty of irregularity and uniqueness.

The collection showcases the inherent beauty of reclaimed marble, transforming remnants into unique masterpieces that elevate everyday living. Each object is a testament to the art of giving new life to discarded materials, merging environmental responsibility with timeless design.

# ECO

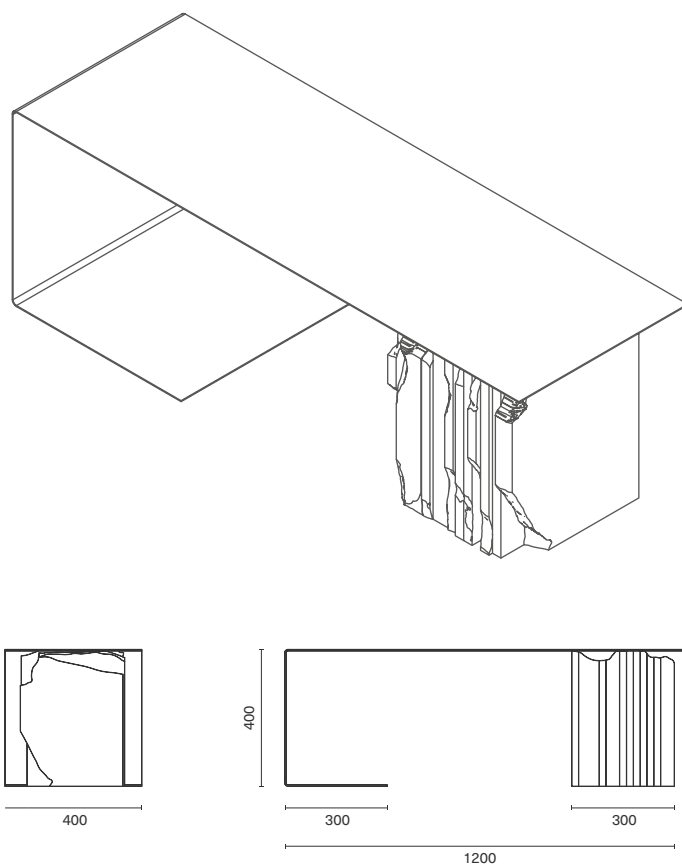

The ECO mirror is a striking piece of art that features an oval reflective surface rising from a reclaimed marble block. Its unique combination of materials and vertical composition creates a powerful and sophisticated statement piece.

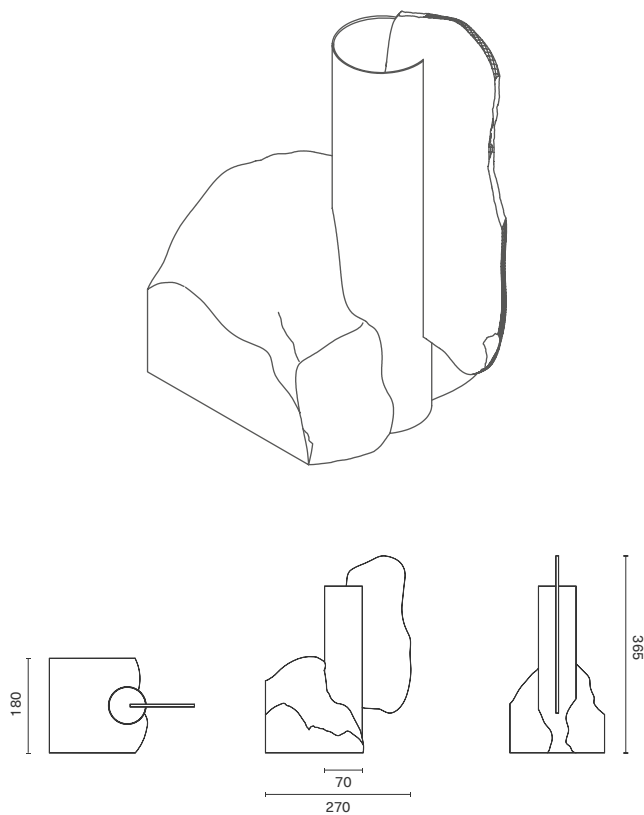

# PAUSA

The Pausa bench showcases an essential silhouette, featuring juxtaposed irregular marble slabs repurposed from rectified marble flooring. These slabs enhance the bench's natural iron seat, adding depth and visual interest.

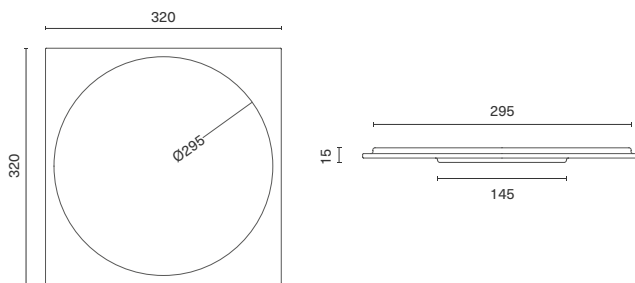

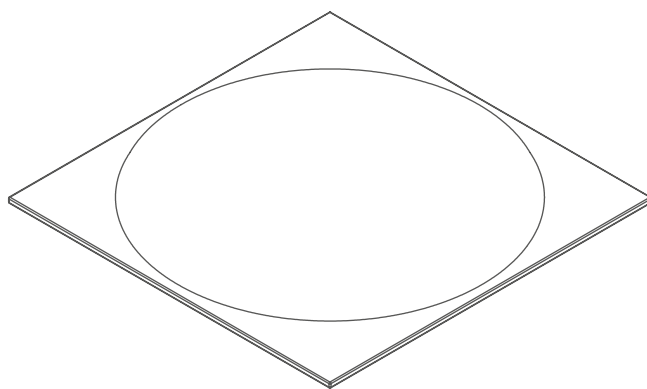

# FORMA

The Forma vase showcases a unique design where a metal cylinder unites a raw stone block with a coloured stone petal. This totemic piece features organic shapes, creating a harmonious blend where the container mimics its contents.

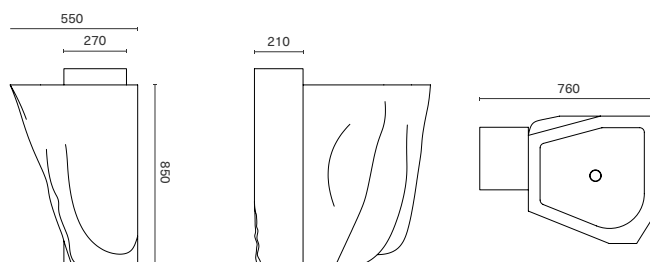

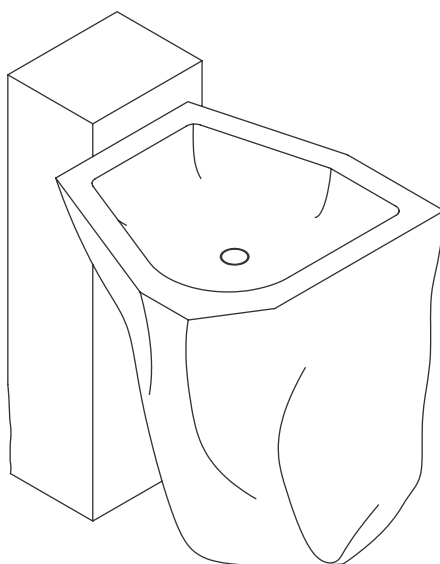

# ETERE

This piece has been crafted from slabs, with a consistent thickness of 5 mm, showcasing the innovation of pushing marble to its limits. Etere combines sustainability with elegance, transforming waste into refined design.

# METEORA

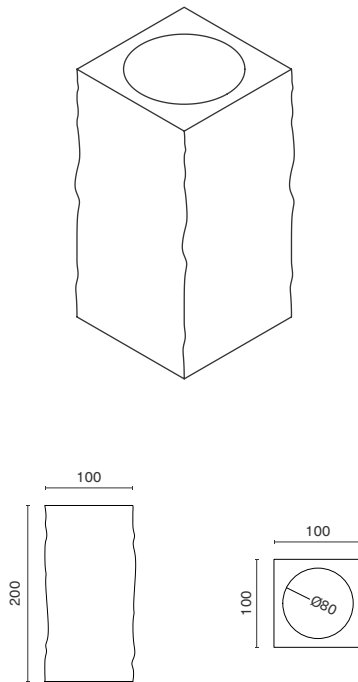

Each Meteora is made from two discarded marble blocks, ensuring a unique piece that reflects the individuality of the available marble. One block serves as the sink, while the other balances its weight, offering space for small items.

# PUNTO

Punto is a wine cooler crafted from discarded small marble blocks, leveraging marble's natural ability to maintain low temperatures. Its minimal design is contrasted by the irregularity of its surface.

# Luxurious marble designs inspired by arabian elegance

Drawing inspiration from the rich cultural heritage and opulence of the Arabian and Mediterranean worlds, the Arabesque collection exudes elegance and sophistication.

Each piece in the collection features intricate shapes and grand architecture, including ornate vases, intricately patterned trays and majestic tabletops.

Crafted with precision and artistic flair, the Arabesque collection brings a touch of exotic luxury to contemporary interiors, celebrating the timeless beauty of marble and the enchanting allure of ancient architectural motifs.

# MEDITERRANEO

Mediterraneo offers a range of small complements for everyday living spaces. Every Mediterraneo piece is crafted from coloured marble, reflecting the rich cultural heritage and vibrant aesthetics of these regions.

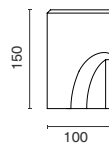

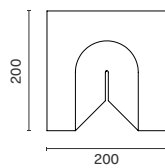

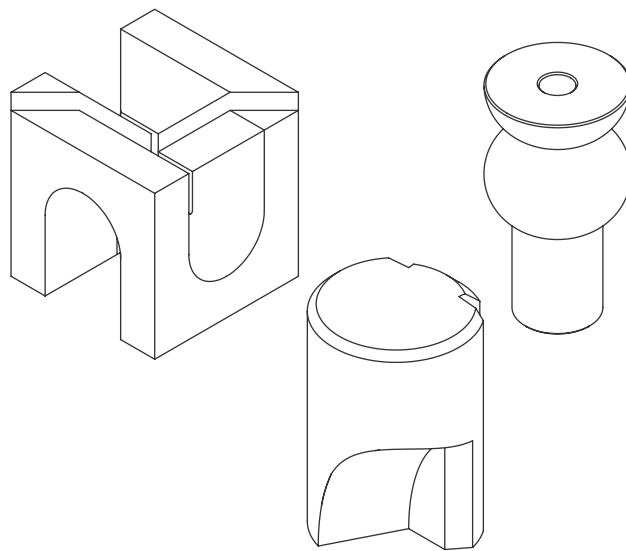

# MUQARNAS

Crafted from coloured marble, each piece of Muqarnas boasts a strong, solid appearance, blending the cultural elegance of Arabian architecture with Italian functional design.
